Celebrating Ten Years of Ministry

© Senior Pastor Orim M. Meikle

"Forgetting those things which are behind, and reaching for the things which are before, I press toward the prize" (Philippians 3:12-14)

We extend supernatural grace and the best of this season to our ever increasing Rhema family across Canada and around the world, from God our Father through Christ Jesus our Lord.

December has arrived and it's hard to believe that 2009 has literally come and gone in the blink of an eye. With the end of another year rapidly approaching I want to take this opportunity to thank you for your support, your prayers and your well wishes. As an integral part of our family we appreciate and love you very much. I would also like to share a few prophetic insights about the coming year with you. We have declared 2010 to be the **The Year of Expansion** for the Rhema family and by the grace of God expand we shall! Consider the following:

Expansion - 2010 will be the year that God lengthens your cords in the earth. In other words your reach will be significantly increased in the coming year. What you did not affect and could not attain in '09, you will touch and you will transform in 2010. Your horizon will be enlarged and there will be no sign of your sun setting in the New Year. Let's go! (Isaiah 54:2)

Enlargement - 2010 will be the year that God literally grows within your life. His intent is to be magnified in you and everyone will know it. Not only will He become larger in you but by virtue of this increase your territory will be enlarged. What you did not hold and could not have in '09, you will gain and you will gather in 2010. Let's grow! (Psalm 34:3)

Endowment - 2010 is the year of that God will release your full inheritance. That which He has promised to you must now come out of the shadows of promise, take on flesh and become your life's reality because you have been a good son and a good daughter. What you did not inherit and could not imagine in '09, you will experience and enjoy in 2010. Let's get it! (James 1:17)

Do not take these words as another year end cliché when I say that 2010 will be your year for exploits. Do not settle for mediocrity and do not wallow in meaningless things. 2009 was a great year of glory and growth but it was designed to prepare you for what God is set to

release in your life. As you wind down this year I need you to also wind up for the greatest year of your life!

The Visionary and Counsellors need each other

Scripture Focus: 2 Samuel 16:23 KJV

Scripture Reading: "And the counsel of Ahithophel, which he counseled in those days, was as if a man had inquired at the oracle of God: so was all the counsel of Ahithophel both with David and with Absalom."

2 Samuel 16:23 KJV

David was surrounded by many counselors but Ahithophel stood out as extraordinary. Who was he and what made him so special? He was a man who was blessed with exceptional spiritual, intellectual and political insights and whose advice was like that of one who inquired of God. What did he do?

1: When David was in despair concerning the visitation upon Uzzah during the attempted transport of the ark, he sought counsel of Ahithophel. Ahithophel then offered the solution as he shared counsel that the ark be carried on the shoulders of men instead of a wagon [...more](#)

Reach your health and fitness goals in 2010

Contributing writer - © Cathy Morenzie

Why do you start a fitness program or weight loss program and then quit before you reach your goals? People often quit because they are not seeing results, they lack the discipline to stick to their commitments, they lose sight of their goals, or they simply lose steam.

Don't wait until the New Year rolls around. I encourage you today to begin to understand that improving your health is a process, one that takes time, patience, endurance and a lot of prayer. Once you can align yourself with God's process for improving your health and your entire life then you can gain the strength you need to stick to your goals forever.

Excellent health comes through a process of tearing down and building up. When you build muscle, you literally start out by tearing and destroying muscle fibers. Improved strength comes as a result of new stronger muscle fibers replacing the old ones [...more](#)
